Hi Abinesh,

Thanks for your interest in the Sonar 3D-15.

The cost price is US\$ 27,900 + shipping (typically around US\$ 150).

We currently have a large backorder for this product and therefore delivery is currently 180 days from receipt of order.

If you would like a formal quote then please confirm your company details and I will send over a quote.

Please note that due to the long lead time we do NOT require payment at the time of order, we will request payment once the unit is in stock and it's ready to ship. To confirm an order all we require is a formal purchase order.

Kind regards

Scott
